Monthly Report

PAR 245

30 Sept 67

SUBJECT: BPE High-Magnification Lens Sets

TASK/PROBLEM

1. Design, fabricate, and test prototype optical systems to extend the Briefing Print Enlarger (prototype) PAR 243A upper limit magnification range from 60X to 140X - 160X.

DISCUSSION

2. Performance tests on the lenses have been initiated and preliminary results look encouraging.

3. The deliverable condenser assemblies are scheduled for completion by 5 October.

PLANNED ACTIVITY

4. Complete the lens performance tests and write a lens performance specification.

Declass Review by NGA.
